CORING SYSTEMS

ITEM DESCRIPTION	PART NUMBER
Arrestor : Prevents the core barrel from dropping through the borehole. Mark II, III, and Mark VI (7.25, 9 cm) Mark V (14 cm)	COS-730-001 COS-730-002
Coring Systems : Mark II (9 cm X 1 meter) Mark III (7.25 cm X 1 meter) Mark V (14 cm X 1 meter) Mark VI (9 cm X 1.5 meters)	COS-710-001 COS-710-002 COS-710-003 COS-710-004
Electric Drill : Used to power the core systems.	COS-610-001
Electric Drill Adaptor : Connects the drill to Core System.	COS-110-002
Engine Drives : 2-Stroke (uses oil and gas mixture) 4-Stroke (uses oil and gas separately)	COS-650-001 COS-660-001
Engine Adaptor : Connects the engine to Core System.	COS-110-005
Field Case : Organizes and protects Extension Rods during shipping and storage.	COS-903-006
Extension Rod : 1 Meter Rod that extends the depth the coring barrel can reach.	COS-720-001
Kyne SideWinder Hoist System : System includes : winch, frame, winch rod, drill, 25 meters of rope, and shipping box.	COS-740-001

MECHANICAL DRILLING

ITEM DESCRIPTION	PART NUMBER
Auger : (1/2 meter)	MDS-210-002
Auger : (1 meter)	MDS-210-001
Bit : Standard	MDS-310-001
Bit : High Strength	MDS-320-001
Replacement Blades : For High Strength Bit.	MDS-321-001
Electric Drill : Used to power the Augers.	MDS-610-001
Electric Drill Adaptor : Connects the drill to the Auger.	MDS-110-001
Engine Drives : 2 Stroke (uses oil and gas mixture) 4 Stroke (uses oil and gas separately)	MDS-650-001 MDS-660-001
Engine Drive Adaptor : Connects the engine to the Auger.	MDS-110-006
Handbrace : Required for manual operation of the Auger.	MDS-500-001
Ice Thickness Kit With Standard Bit :	IMS-410-001
Ice Thickness Kit With High Strength Bit :	IMS-410-002
Field Case : Organizes and protects Augers during shipping and storage.	MDS-903-001

THERMAL DRILL

Thermal Drill System	TDS-800-001

FIELD CASE

FIELD CASES

Organizes and protects up to 9 augers during shipping and storage.

MDS-903-001

We have drilled 24m through a multiyear pressure ridge and 23m through a grounded ice island (tabular ice berg) with these augers using a 1/2 inch (1.5 cm) electric drill to power the flights.

MECHANICAL DRILLING

ICE AUGERS

(1/2 METER) MDS-210-002 (1 METER) MDS-210-001

ICE DRILLING BITS

Standard MDS-310-001 High Strength MDS-320-001 High Strength Bit Replacement Blades MDS-321-001

MECHANICAL DRILLING

ELECTRIC DRILL

MDS-610-001

Used to power the augers. 120V.

DRILL ADAPTOR

MDS-110-001

Connects the drill to auger.

THERMAL DRILL SYSTEM

TDS-800-001

System includes:

- boiler
- pump unit
- shipping box
- 50 foot of hose
- drill point

MECHANICAL DRILLING

ENGINE DRIVES

Engine Drive 2-Stroke (uses oil and gas mixture)

MDS-650-001

Engine Drive 4-Stroke (uses oil and gas separately)
